EXPERIENCE

General Assembly Web Development Immersive

Completed a 13-week, 500+ hour immersive web development program. Created 4 full-stack, single-page web applications.

SKILLS

JavaScript	Ruby
jQuery	Ruby on Rails
Ember.js	PostgreSQL
Handlebars.js	MongoDB
HTML	Node.js
CSS	Express
Sass	

EDUCATION & TRAINING

Social Enterprise Greenhouse

Graduate of the Impact Accelerator Program A 12-week blended learning platform that provides social entrepreneurs with the knowledge, networks and resources they need to accelerate the growth of their enterprises.

Vassar College

Bachelor's of Arts in Women's Studies
GPA: 3.4/4.0

PROJECTS

Final Project

A full-stack, single-page application that is totally cool.

Group Project

Use MongoDB and Express to build the back end for an application.

Sweet Pea Farm Website

A full-stack, single-page application using PostgreSQL tables to store data between the farm and its customers. Front end written with JavaScript and jQuery. Back end API written with Ruby on Rails. Tables formatted with HandlebarsJS. Design enhanced by Bulma, a CSS framework.

Tic-Tac-Toe Game

I used a pre-existing API to log in users to a game written in JavaScript and jQuery.

OTHER EXPERIENCE

Campaign Canvasser

For Rhode Island Earned Sick Days bill and Marcia Ranglin-Vassell for State Representative

Co-owner and Manager

For Sol Chariots Pedicab Cooperative, a bicycle-based company offering delivery and special events service.
